Spam & Virus E-Mail Filtering

Katharion provides highly scalable gateway anti-spam and anti-virus solutions to help via Verio resellers substantially reduce their time and costs in managing the increasing burden of junk mail.

Featuring seamless integration with existing mail infrastructure, the service is highly accurate and extremely simple to use – freeing time for both administrators and users.

In a fraction of a second, Katharion scans incoming messages using both traditional and cutting-edge technologies to detect continually evolving junk mail.

The result is a dramatic reduction in junk email -- typically upwards of 98% -- relieving a significant burden for email users and system administrators.
